

STEEL BAR BENDING MACHINE MODEL : GW42

This machine can bend rebar various shape at the diameter 42mm on the building construction also it is design advance, operation easy, safe reliable, performance stable efficiency high and procedure simple and so on.

Technical Parameters:

Bending Rebar	42mm
Plate Diameter	360mm
Bending Speed	10-20 T/min
Motor Power	3 KW
	380 V
Motor Speed	1140 T/min
Weight	320 Kg
