

HGMIG WELDING MACHINE Model: HGMIG 350

Accessories:

- MIG Torch 1 piece
- Earth cable and earth clamp 1 piece
- Connector cable 1 piece
- Control cable 1 piece
- Gas hose with hose clamp 1 piece
- Other(contact tips, spanner, connector and hoop etc) 1 piece

Description:

- Three phase, professional MIG/MAG welding, separate wire feeder, fan cooled four roller drive are optional.
- DC output, step voltage adjustment, stepless wire speed control, intermittent welding time is adjustable.
- Perfect overheating and over load protection.
- Excellent for solid wire and flux core wire.
- Ideal equipment to weld mild carbon steel, mild alloy steel and stainless steel in industry use.

Technical Parameters:

Model	Input Power	Rated Input capacity	Rated input current	Welding current adjustment range	Open circuit voltage	Rated Output	Wire Dia.	Weight	Packing
