

HYDRAULIC LIGHT VERSION CNC SWING BEAM

Model: HSB - E3006

MACHINE FEATURES:

- CE Norm
- CNC Control - Cybelec CybTouch 6 (color-touch screen)
- Automatic cutting length (stroke) adjustment controlled by CNC
- Ball screw back gauge with 1000mm stroke controlled by CNC
- Automatic calculations of cutting functions upon material specifications
- Automatic swing-up backgauge
- 1m flip-up openable finger guard with switch protection
- Manual Blade gap adjustment
- Back side protection panels
- SICK Back/Rear light barrier
- Rear Sheet sliding plates
- Shadow line illumination
- Squaring arm with Ruler & T-Slot & Tilting stop
- Support arms with Ruler & T-Slot & Tilting stop (on 2,5m & 3m: 2pcs - on 4m: 3 pcs.)
- Ball Transfer Tables
- Fixed cutting angle
- Cutting movement hydraulic and return movement with spring system
- Without Throat depth
- Hoerbiger Hydraulic System
- Siemens Electric System
- 2 sided Top & 4 sided Bottom Blades

MACHINE PARTS:

TECHNICAL DATA:

MODEL	HSB-E3006
Cutting Capacity	6 mm
Cutting Capacity	4 mm
Cutting Length	3100mm
Sharing Angle	1,2 degree/grad
Hold Down Cylinder	14 piece
Stroke per minute	20 1/min
Table Height	800mm
Back gauge movement distance	1000mm
Back gauge speed	110mm/sec
Oil Tank	150lt
Motor Power	15kW
Length	4000mm
Height	1640mm
Width	3010mm
Approx Weight	5500kg
