

SURFACE PLANER MACHINE MODEL : F410 NOVA

TECHNICAL SPECIFICATIONS:

Working width	410mm
Total worktables length	2610mm
Cutterblock diameter (n. of knives)	120 (4)mm
Spindle speed	5000rpm
Surface fence tilting	from 90° to -45°
Main motor power	5 (7) kW (HP)

ADVANTGAES:

Precision that lasts a lifetime without noise with the system on connecting rods. The system guarantees the maximum movement fluidity and avoids deformations of the work table. This guarantees maximum stability, reliability and ergonomics.

Total absence of vibration thanks to the large worktables made from ribbed cast-iron.
