

## THICKNESSING PLANER

Model: PS63

### STANDARD EQUIPMENT

- Ribbed cast iron worktable with vertical sliding by means of 4 steel screws
- Powered table lifting with 2 speeds and micrometric sliding
- Cutterblock Knife-setting device
- Numerical readout of working height with decimal control of the quota
- Front roller in helical steel
- Rear rubber-coated steel roller
- Soundproof infeed and outfeed barrier
- Padlockable main switch
- Overload switch protection
- Auxiliary low voltage circuit (110 Volt)
- Exhaust hood
- Manual star-delta start

### TECHNICAL DATA

Working width	630 mm
Working height (min./max.)	3,5/300 mm
Worktable dimensions	640x1000 mm
Max. stock removal	8 mm
Cutterblock rotation speed	4500 rpm
Cutterblock diameter/no. of knives	120/4
No. 4 feed speeds of workpiece	5-8-12-18 m/min
Diameter of dust extraction outlet	150 mm
Motor power (S6-40%) , with automatic star-delta start	12 HP 50 Hz
