

WOOD TURNING LATHE MACHINE Model: T 124

TECHNICAL PARAMETERS:

Distance between centers	1150	mm
Centers height	200	mm
4 chuck speeds	570/1000/1850/2500	rpm
Three-phase motor power S1	1,1 kW (1,5 HP) 50 Hz	

ADVANTAGES:

Maximum reliability and top precision turning thanks to the strong base. A full range of available devices, to make the machine extremely versatile. Total safety machining with the transparent guard.

THOMAS
