

CNC ROUTER MACHINE

Model: YD-X3/1530

APPLICABLE MATERIALS

Acrylic, Alucobond, aluminum plate copper plate, insulation plate Bakelite plate, honeycomb plate ABS, PVC, wood hardwood organic board

PRODUCT DESCRIPTION

Working Size: 1500x3000 mm

Manual Tool Changing

Drive motor: Taiwan Delta servo motor

Japanese SHIMPO reducer

Control system: Ncstudio DSP NK105 control system

Table: vacuum table

Vacuum pump power: 7.5KW air cooling pump

X Y Z transmission: X、 Y axis import grinding rack drive , Z axis screw drive

Guide(X Y Z): Taiwan HIWIN guide rails 25mm(X Y Z axis)

Spindle power: chinese 6KW water cooling spindle

Chiller

Spindle speed: 0-24000r/min - Repositioning accuracy: 0.05mm

Inverter: Taiwan Fuling

Power supply: 380V/50Hz/3 Phase / Automatic lubricating system

Machine head pass aluminum oxidation treatment

Machine body pass quenching heat treatment

Standard:

Dust collector (Two bags)

Tooling: 2 pc
