CNC MACHINE FOR CUTTING PRE INSULATED PANELS MODEL: ECO FAST / USED

شركة لاروزا
للأدوات و المعدات الحديدية ذ. م. م.

TOLL FREE : 800 527672

ECO SILENT is a CNC machine with 3 controlled Axes. ECO SILENT uses two blades technology in order to obtain straight ducts and special pieces in pre-insulated.

In this field, ECO SILENT is the first machine using two-blades-technology that, compared to a milling machine, permits to reduce the material wastages of about 15%. The machine is really user-friendly, because it is simple to program and to use. In addition, ECO SILENT is the fastest machine in the market.

Indeed, thanks to Brushless motors, ECO SILENT reach really high working speed (35 linear mt. per minute) and rapid displacement; furthermore, you don't need to do zeroing operations anymore.

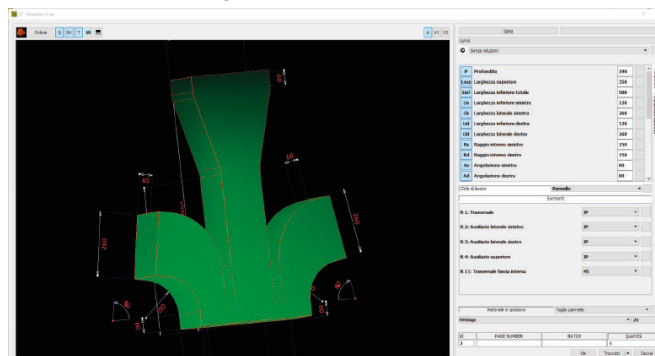

TECHNICAL DETAILS

Minimum panel thickness	10 mm	Maximum panel width	1200 mm
Maximum panel thickness	30 mm	Maximum panel length	UNLIMITED
Maximum aluminium thickness	200 Micron	Weight of the machine	1400 Kg
Minimum panel width	600 mm	Size of the machine	840x240xh.175cm

PROGRAMMING SYSTEM

The parametric **CUTEXPERT** software, based on **WINDOWS** operative system, is intuitive and simple to learn. **CUTEXPERT** allows you to choose and parameterize dozens of pieces and then it will automatically arrange them on the working area with the best space optimization, reducing dramatically the material wastage.

Through a **CAD CAM** system it is easy to import **2D DXF** drawings directly to the **CUTEXPERT**.
