

## TYPE STROKE ADJUSTABLE PRESS MODEL : J23 - 40D

Model	Unit	J23-40D
Nominal force	kN	400
Stroke under nominal force	Mm	4
Slide block stroke	Mm	20-120
Number of stroke	Mm	55
Max. die set height	Mm	220
Die set height adjustment	Mm	70
Distance from slide block center to the frame	Mm	260
Worktable dimension	Mm	480 710
Dimensions of worktable hole	Mm	Φ220 25 Φ180
Thickness of bolster	Mm	80
Hole dimension in bed	Mm	Φ200 150 300
Dimension of side block button surface	Mm	270 320
Size of the handle hole (diameter x depth)	Mm	Φ50 70
Max. tilting angle of body	°	25
Distance between columns of body	Mm	300
Motor power	Kw	4
Net weight	Kg	3180

### Main Features:

- Adopts horizontally placed crankshaft.
- Stroke adjustment device mounted on crankshaft
- Rigid rotated bond clutch.
- Manual shut height adjustment with scale display.
