

PLASMA CUTTING MACHINE

Model : CPL - C 1530

MACHINE DETAILS

- * Hypertherm Powermax 125 plasma power supply
- * Hypertherm Micro Edge CNC controller
- * Machine Axis (X,Y,Z)
- * 3 Axis cutting head for plasma
- * UZMA automatic torch height control - UZMA THC
- * Nestmaster software with automatic part nesting program
- * Auto cutting height correction software
- * Air suction system with cutting table
- * Ethernet and network interfaces , USB port
- * Metric and Inch system
- * Laser pointer
- * Retrace feature
- * Alignment to sheet feature
- * Cutting plate alignment with laser
- * Torch positioning with laser light
- * Plasma ignition console
- * Torch collision protection
- * Automatic or manual cut selection
- * Dual side helix pinion and AC digital servo motors on X axis
- * Helix rack pinion and AC digital servo motors on Y axis
- * Brushless AC servo motors on all axis
- * Pneumatic cutting table with cutting area opening feature

CONTROLLER

UZMA
